1BILL AGGREGATION

WHAT IS 1BILL?

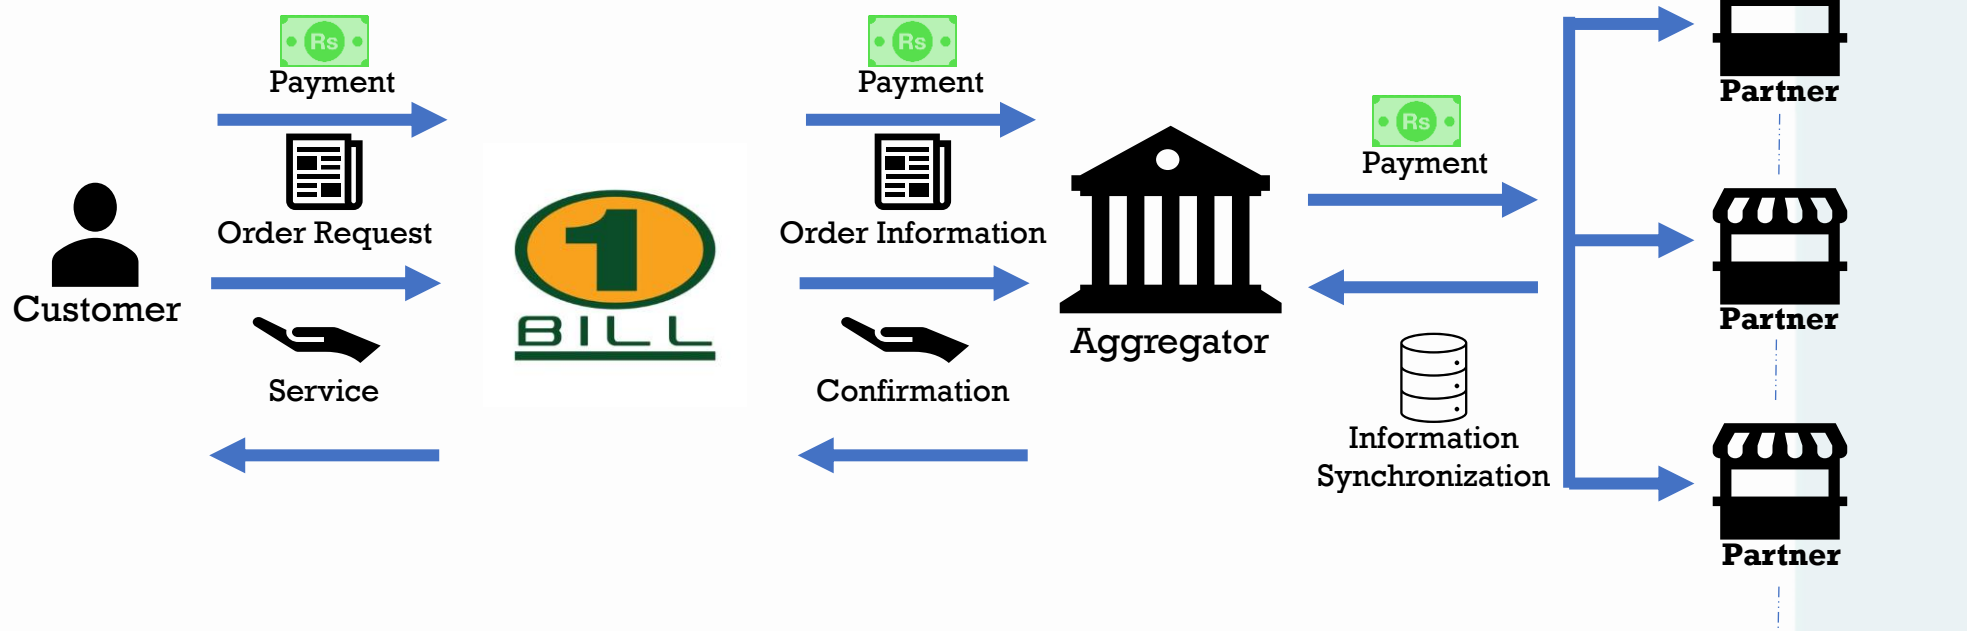

- ① 1LINK introduced 1BILL, a comprehensive bill payment solution designed to make payment collections through banking channels i.e. Alternate Delivery Channels (ADC) and Over The Counter Channels (OTC).

HIGH LEVEL FLOW

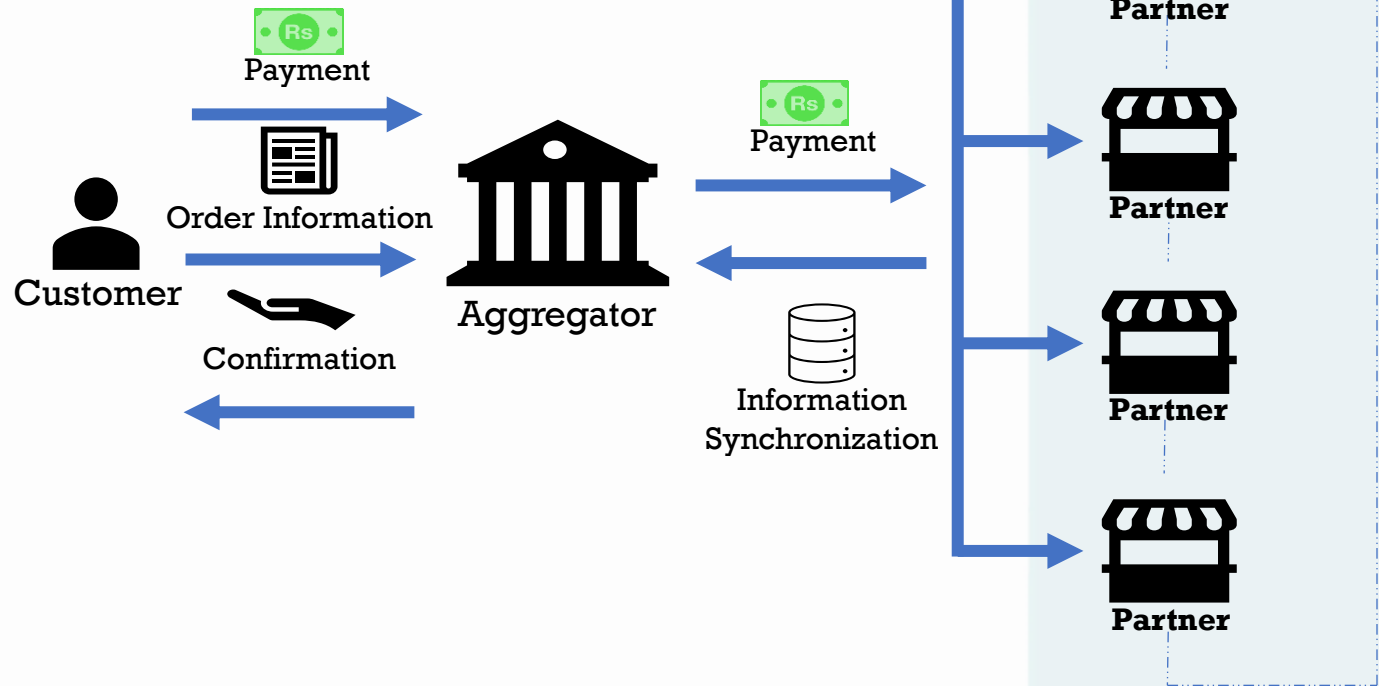

WHAT IS 1BILL AGGREGATION

- ① 1LINK has improvised 1BILL services to benefit aggregators with 1BILL Aggregation Model. 1BILL Aggregation is best fit for billers that are partnered with their sub billers for their payment collections and through banking channels i.e., Alternat Delivery Channels (ADC) and Over The Counter Channels (OTC).

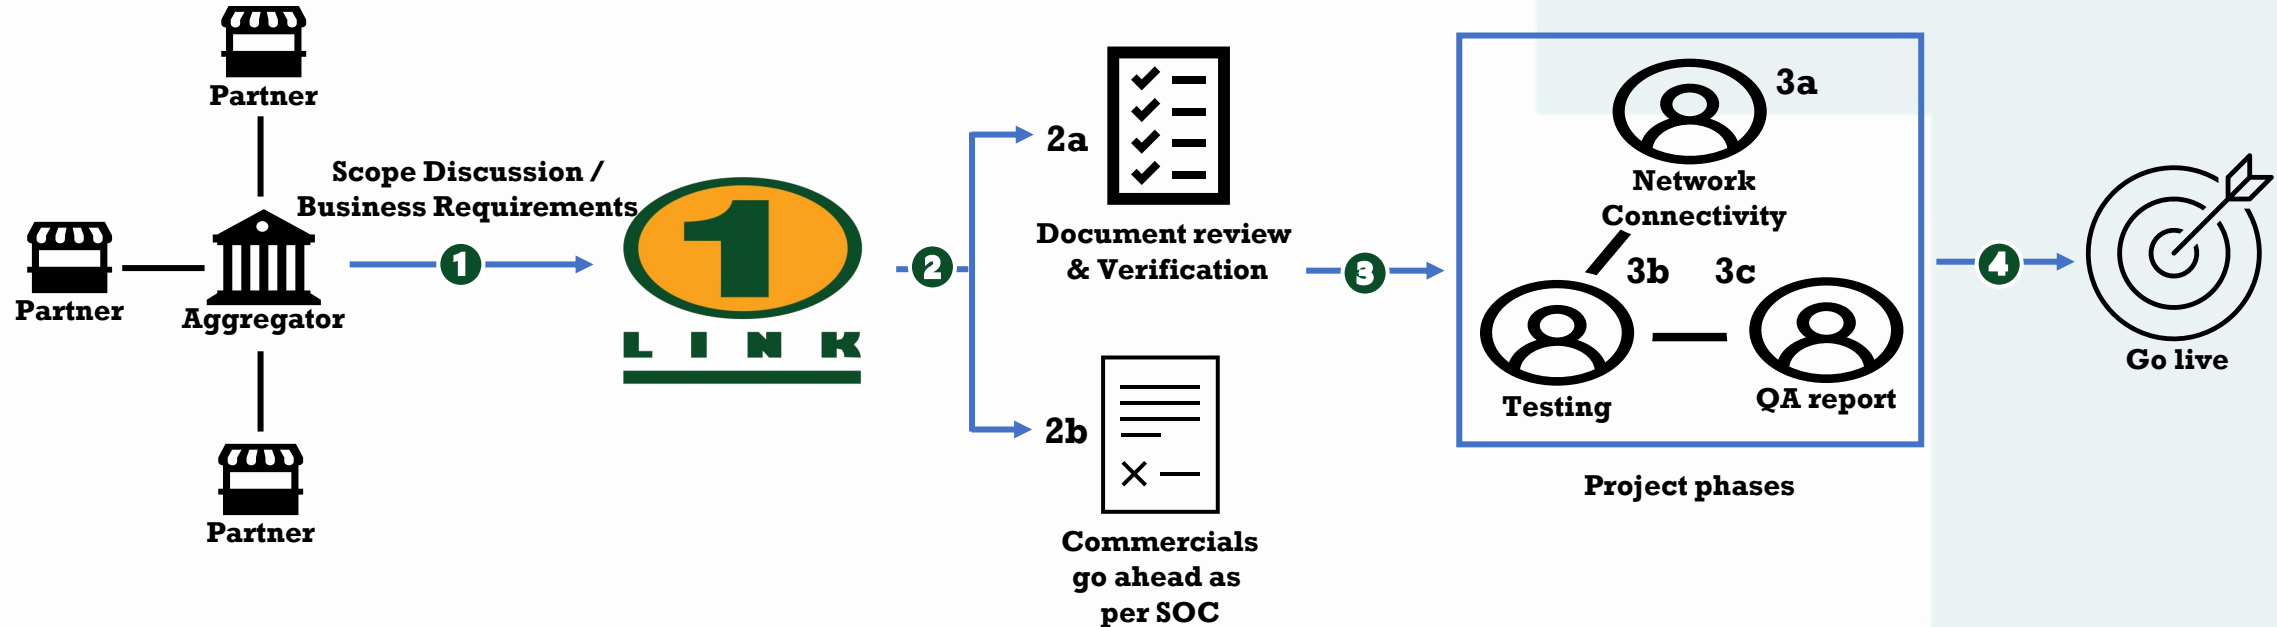

KEY BENEFITS OF 1BILL AGGREGATION

- ① Ease of information exchange.
- ① Comparing different products quality and price.
- ① Trusted partnerships
- ① Secured transactions
- ① 1STOP purchase
- ① Quality comparison

1BILL AGGREGATION ONBOARDING PROCESS

AGGREGATOR ONBOARDING STEPS

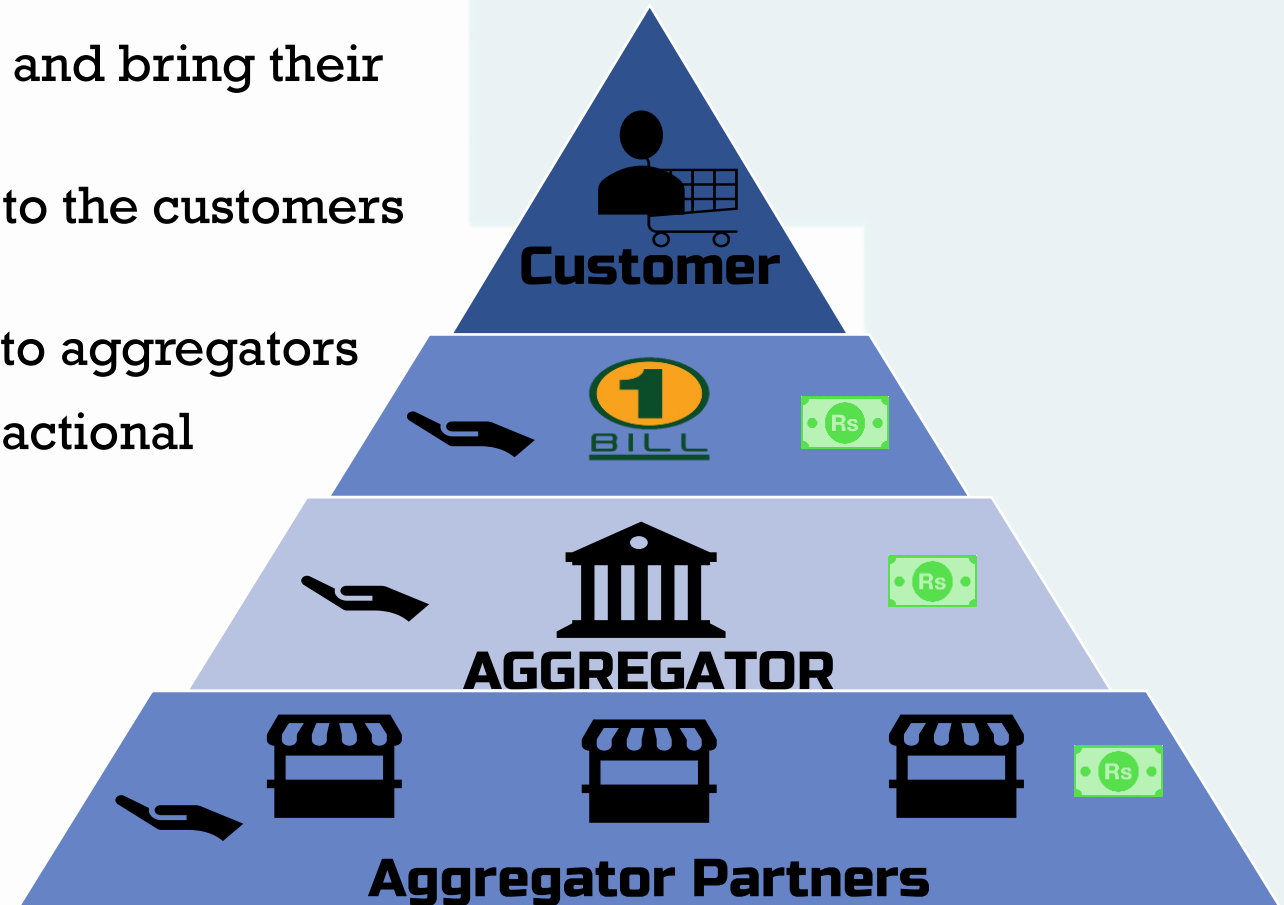

- ① Customer connects to 1LINK
- ① 1LINK business team understands customer's business nature and discuss the scope.
- ① Once both parties are on the same page, 1LINK team conveys the commercials and takes a go ahead from the customer.
- ① 1LINK provides NDA and takes customer's sign off.
- ① 1LINK gives customer an onboarding documents checklist to complete.
(Meanwhile all the required agreements are being conveyed to customer parallelly for authorized signatories)
- ① Legal team verifies the documents after submission.
- ① On successful verification of documents legal team gives green signal for project initiation.
- ① 1LINK raise Fact Sheet & Project Request Form (Scope, products, 6-digits prefix & agreed commercials) and gives it to Finance & Project Management Office, respectively.
- ① PMO initiates the project followed by building connectivity with networks and on successful establishment, performs necessary testing before going live.
- ① On finalization and successful testing, project is put live.
- ① After confirmation from customer, project is closed with 3 days post live monitoring.

BIFURCATION OF INVOLVED PARTIES

- ① Aggregators sign contract with partners
- ① Aggregators connect to 1BILL service and bring their Partners to 1BILL services
- ① 1BILL makes these services available to the customers on their ADC / OTC channels
- ① Partners and their services are liable to aggregators
- ① 1LINK ensures the availability of transactional informational availability

AGGREGATION BUSINESS MODEL

Aggregator business model is a platform where the leading entity doesn't produce or store any product / services. However, on behalf of its partners lead with their information of services / goods and connects their customers at one stop.

BENEFITS

Customers	Aggregator	Partners
Easy comparison	Convenient pipeline	Market availability
Multiple Choices	Quick information access	Customer awareness
One stop purchase	Increased revenue	Quick settlement

THANK YOU!
